

ISPY WILDLIFE IN AUTUMN & WINTER

At Leeds Castle you will find all sorts of wildlife. From birds and ducks, bees and beetles and lots and lots of different flowers. See how many you can spot today.

A Greylag Goose

There are many different types of mushroom. Do not touch them, as lots of them are poisonous

The Robin is Britain's national bird.

A Pied Wagtail—often seen on the castle island.

Conkers are the fruit of the Horse Chestnut Tree

A Horse Chestnut Tree

ISPY WILDLIFE IN AUTUMN & WINTER

There are grey squirrels around the Leeds Castle grounds.

Acorns grow on Oak trees, look at the curly leaf!

Swans and geese in a snowy scene at the lake.

A large oak tree.

Winter is a beautiful time of year at Leeds Castle, with evergreen trees, winter flowering plants and birds, both those that are British, and some that come to spend the winter in our country. The box below is for you to draw a picture of any wildlife, flowers or plants or animals that you saw today.
