

# ISPY WILDLIFE IN SUMMER

At Leeds Castle you will find all sorts of wildlife. From birds and ducks, bees and beetles and lots and lots of different flowers. See how many you can spot today.

A duckling amongst the flowers

A pair of Mallards—the male one is the one with the green head.

Bees are very important for pollinating crops. They do have a nasty sting though, so don't get in their way!

A kingfisher on a branch above the water. He's waiting for a fish to catch!

There are several different types of swans, all with different beaks. These, with the orange beaks are called Mute Swans.

There are hundreds of different flowers in the gardens. These ones are called Irises, did you spot them?

# ISPY WILDLIFE IN SUMMER

Another bird waiting for a fish—this is a heron.

A butterfly, how many different butterflies did you see today?

Gunnera is sometimes called giant rhubarb

A Great Crested Grebe, often seen on the moat.

Summer is a beautiful time of year at Leeds Castle, with many trees, plants, flowers, insects, birds and water fowl to see. The box below is for you to draw a picture of any wildlife, flowers or plants or animals that you saw today.

A large, empty rectangular box with a dark green border, intended for a child to draw a picture of wildlife, flowers, plants, or animals they saw today.
